**ADC is known for its exquisite designs and excellence in craftsmanship.**

You can use this printable chart to determine your Australian ring size.

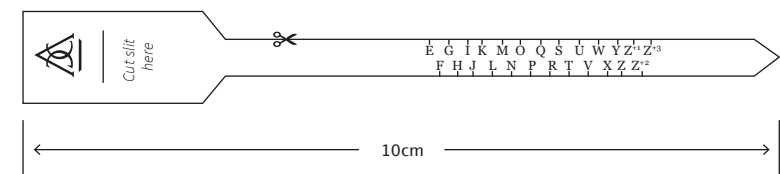

*Please note* that this is a guide only and you may still require re-sizing at ADC to ensure your ring fits perfectly.

## PRINTING INSTRUCTIONS

This chart will need to be printed for accuracy, it can't be measured on screen. Before you print, set the page size to '100%' or 'Actual Size' in the print dialog box. Check it has printed at the correct size by using a ruler to measure the line underneath the ring sizer. It should measure 10cm, as marked.

## WRAPPED RING SIZER

1. Cut out the ring sizer, then use a knife to cut a small slit in the marked position.
2. Wrap the ring sizer around the correct finger with the text on the outside, then poke the pointed end through the slit.
3. Pull the end so it fits snugly around the widest point of your finger – typically this is at the knuckle. Read the letter size at the slit – if it's between two letters, use the larger size.

## EXISTING RING SIZER

1. Find one of your own rings that fits the correct finger.
2. Place the ring on the chart below to determine the correct size. The circle on the chart should line up with the inside of your ring.
3. Choose the letter that is the closest match.
